MPMCA Board Member**

## Flint Membership Meeting

### What Do I Do When the MIOSHA Inspector Arrives

Because the law requires that almost all inspections by compliance safety and health officers from either federal or state agencies be unannounced, it is necessary that the responsibilities of the management team be fully understood. For that reason, the Flint PMC's July Membership Meeting was a seminar by Ed Nuttman, Performance Dynamics. Ed, a well-known Safety Consultant, gave a presentation on how the inspection should be handled, supplied MI-

OSH Fact Sheets, and Inspection Check Lists. The meeting went long over its allotted time due to the extensive question and answer session.
